Rules & Policy

Loading, Transporting, and Unloading

Inflatables are very heavy ranging from 200–400 lbs. Please remember it's the patron's responsibility to load and unload equipment for services rendered. A full size, open bed pickup truck, and a minimum of two people capable of lifting 150 lbs. each are required for pick-up and return of larger items.

Cleaning

Please return inflatables clean and in the same condition as when checked out, as other patrons that have reserved an inflatable are picking up the same unit you are returning. Silly string use is strictly prohibited and cannot be used in, on, or around any inflatable because it chemically bonds (like glue) to the inflatable's vinyl surface. Silly string removal could cost the renter hundreds of dollars.

Inflatables Must Not Get Wet

If the unit is to be used in an area with automatic sprinklers, please ensure the system has been shut off for at least one full day prior to and on the day of your event. The setup area must be dry. Wait until dew has evaporated before setting up; take down and secure indoors before it settles on the unit. Inflatables cannot be left outdoors overnight; indoors only.
